

Pediatric Hospitalist

There is a really spacious, beautiful and well equipped play room near the inpatient unit which the child life specialist manages to bring in children to play, do arts and craft or for simply to watch a movie. The school education room located next to the inpatient unit has a NYC certified teacher to help children with their home work to make up for the lost school days while in the hospital. The 'Red Nose Doctors' from an outside organization visit the admitted children every Tuesday to play tricks and perform shows. Our residents are trained to manage all pediatric medical conditions having the 360 degree approach to a child's health and well-being.
